

SC BAMESA OTEL SA has implemented an integrated management system of quality, environment, health and safety, according to standards: **IATF 16949:2016, ISO 9001:2015; ISO 14001:2005 and OHSAS 18001:2008**, described in the management integrated system manual.

We are committed to :

- **preventing injuries, occupational illnesses and protecting the health and safety of employees, clients, the public**
- **protecting the environment and preventing the pollution of the environment;**
- **monitor and continuously improve quality of our products and services in order to go beyond our customers expectation in terms of Quality – Costs – Terms;**
- **continuous improvement of integrated management system efficiency and satisfying the applicable requirements;**
- **identify hazards, analyze their impact in quality, environment, health and safety performance and implement controls to reduce risk, minimizing losses and avoid work accidents, environment and other assets;**
- **comply with applicable legislation and regulations in the locations where we operate.**

The general objectives of the quality, environment, health and safety policy, adopted by our company are:

1. development of commercial actions in compliance with our commercial strategy;
2. increase integrated management system process efficiency and improvement of industrial performance;
3. increase of our customers satisfaction;
4. increase of motivation and the involvement of our staff for the benefit of the company by training, awareness and maintenance of appropriate work environment;
5. reduction of energetic and material consumption in order to protect natural resources;
6. obeying legal provisions of pollutant emissions and waste management.

The top management makes sure that policy is available for all company employees and other parties involved.

Effective application of this policy will be actively enforced in all our locations.
